## PRESIDENT WILL TAKE OFFENSIVE POLICY IN JUNE

"A Vigorous Offensive"  
Will Characterize Wil-  
son View.  
TO SPRING SURPRISE

Third Term Candidacy  
May Be Last Minute  
Statement.

Washington, May 13.—The political plans of Woodrow Wilson, it was learned today, can be summed up in three words: "a vigorous offensive." Democratic leaders in a position to know the president's intentions, as nearly as any, declare that the president, feeling the administration guilty of any serious blunders, does not propose to have the Democratic party assume a defensive attitude, but to the contrary, every movement from this time on must be aggressive right up to the November elections.

Likewise the president is known to be inspired by a positive conviction that not only has the course of his party been in the main correct, in peace and at war, but that it has been consistently constructive as well, hence the plan to take the field on this record. Those who know him well declare he will not tolerate any more digging in behind the administration record, but will insist upon carrying it forward as a weapon squarely into the enemies' lines in a mighty endeavor to break through.

The fight has just begun, so far as they are concerned, the administration's backers insist, and in the course of the next month or so, many believe, President Wilson will spring more than one strategic surprise. Some expect the president to act in the political campaign pretty much on the advice he gave the American navy when it sailed to war. He said:

"I would like to see something unusual happen, something that was never done before—be audacious."

While the president's general political attitude is no longer a mystery, and though it is known that he intends to wage a terrific offensive for the things the administration stands for—some of which he recently characterized as "the hope of the world"—the details of his campaign have yet to be revealed.

Will he spring a surprise by offering himself for a third term on the grounds that the league of nations has been made the paramount issue of the campaign and he and the league are inseparable? The highest available Democratic authorities say no, yet party opinion on the subject is not unanimous. Some Democrats today persist in believing that "something that was never done before," will happen in this campaign, and that this "something unusual" will be a nomination for a third term.

## SWOLLEN PROFITS BLAMED FOR HIGH PRICE OF SUGAR

Washington, May 13.—Swollen profits of 12 sugar companies, producing more than half of the sugar consumed in the United States, have inflated the price of sugar to 20 and 25 cents a pound when the same product could be sold with a fair profit at 11 and 12 cents, said W. Jett Lauck, consulting economist of the railroad brotherhoods and unions, in a supplemental report which he presented to the federal railroad board today. He pointed out that sugar is scarce, even at the present prices.

"According to the present trend the amount exacted from the consumers by the sugar profiteers will reach on a conservative estimate at least \$600,000,000 this year, or a contribution for the year of \$30 by every American family to these 'gougers,'" said Lauck.

## FEAR DISTURBANCE BETWEEN HONDURAS AND SALVADOR

Washington, May 13.—Fears were expressed here today that trouble may have arisen in Honduras and Salvador following receipt of notice that a censorship has been established in those two countries.

Dispatches received by the Honduras legation stated that there had been slight disorders on the border between Honduras and Salvador several days ago but were not serious. The legation had no advice as to the establishment of a censorship.

The state department was without advice.

## CITY RECAPTURED

El Paso, Texas, May 13.—Saltillo, the capital of the state of Coahuila, has been recaptured by Carranza troops under federal governor Mireles, it was stated by a high Carranza official who arrived in El Paso a refugee today.

QUICK WIT SAVES  
SMALL FORTUNE

The quick wit of Mrs. William N. Haskell, of New York, wife of Colonel Haskell, U. S. A., head of the Near East Relief Committee, saved \$20,000 from falling into the hands of pirates who boarded the French packet Scuriah in the Black Sea. Mrs. Haskell threw a money belt containing the \$20,000 into a waste water receptacle. The pirates, however, took \$2,000 in money and jewels from Mrs. Haskell before leaving the vessel. Several other American women who were aboard the French boat were robbed of several thousands of dollars by the pirates.

## SEE COALITION PARTY BETWEEN TWO FACTIONS

Socialists and Labor Followers May Combine.

New York, May 13.—A coalition between the Socialist party and the Labor party which is to be formed in Chicago in July, is regarded as a hopeful possibility today by Socialist leaders. It is not unlikely that negotiations will be begun shortly to bring this about. The Socialists have paved the way for such a union by adopting a conservative program, designed to appeal particularly to the laboring man. The Socialists met the labor issue by including a plank which set forth that the Socialists supported all labor in labor's economic struggle, but took no part in their factional differences.

The Socialists believe that "rump" labor vote this year will be large. They base their belief to a great extent on the strength shown by the "outlaw" railroad strike and the sporadic outbreaks of "leaderless" strikes in all parts of the country.

Never, they believe, has the dissatisfaction and unrest among labor been so pronounced.

Some outlet for political expression must be afforded these dissatisfied ones, and they intend to make that outlet the socialist party if it is at all possible.

The Socialists expect to poll upward of 3,000,000 votes this fall. If they can effect a junction with the insurgent labor party they believe this poll can be run up to 5,000,000 votes, which will not enough to elect a president would nevertheless constitute a formidable club to use on which ever party does come into power.

## PRISONERS CHARGED WITH MURDER MAKE ESCAPE FROM JAIL

Akron, O., May 13.—Sawing their way through the iron bars and using several bed blankets as a rope, six prisoners, three of them charged with first degree murder, successfully escaped from the county jail here early today. The discovery of the jail delivery was not made until attacks began to serve breakfast.

The prisoners, all of whom are still at liberty, are: Leroy Dunlap, George and Louis Niechter indicted on charges of first degree murder; George Wagner, charged with embezzlement; Dan Popovich, indicted in connection with the theft of \$16,000 from a bank messenger and Moe Vogel, held for grand larceny.

Admiral's Actions Are  
Rapped In Senate  
Investigation.

Washington, May 13.—Rear Admiral Sims "unjustifiably" presented a "forged telegram" as part of his testimony before the senate subcommittee investigating the conduct of the war by the navy department, Secretary Josephus Daniels today charged before that committee.

The document in question was submitted by Sims as being signed by Secretary Daniels and in substance outlined a policy on the convoy question which Daniels denied he ever entertained. He read the letter referred to by Sims and said the original which he obtained from the files of the British embassy shows the message was signed "A. F. Carter of the bureau of operations."

"I never entertained the opinion stated in the dispatch he displayed. I know I had never sent such a telegram. I know if my name appeared on such a telegram it was because somebody had forged my name to it. I found that a telegram had been sent to Sims about the time of the one he referred to. It was sent through the British embassy, which had retained the original copy," Daniels continued, presenting the committee with the original copy which was signed by Carter.

Changed Signature  
"This shows that somebody somewhere was guilty of signing my name to an official dispatch which the original here produced shows I never signed, or of altering the dispatch by erasing the real signature and substituting 'Daniels'."

"The perpetrator of this attempt to fix upon the civilian secretary a telegram signed by another official, ought to be produced by Admiral Sims who produced the altered telegram and who owes an apology to me and the country for the impression undertaken to be made by his testimony based upon the false signature."

The secretary produced orders signed by Sims in which destroyers are moved from Brest to Queenstown, "forcing transports to remain in port there until proper convoy could be obtained. Sims was warned repeatedly that the protection of American troop ships should be paramount," Daniels said. "My last communication to Sims relative to this was a sharp reminder as I could send without making it a reprimand."

"When the first troops arrived in France, the destroyers accompanying them were ordered to Queenstown which information I received from Admiral Gieves, in charge of the convoy. You can imagine my surprise when I heard this," declares Daniels.

"Sims was not in his office when the first convoy was going across the water. He was at the admiralty house in Queenstown where he was taking the place of the British admiral in command. It was the only week while he was in Europe that he exercised direct command over any of our vessels."

## BUTLER'S ADVOCACY OF WINE AND BEER SCORED BY BAKER

Columbus, O., May 13.—Advocacy of light wines and beers as one of the 17 points in his platform declaration has put Dr. Nicholas Murray Butler, president of Columbia University, in the impossible candidate class, in the belief of the anti-saloon league of America, according to a statement issued by Rev. Dr. P. A. Baker, general superintendent of the league.

"If Dr. Nicholas Murray Butler ever had any show for the nomination for the presidency," Baker's statement says, "he sent it into eclipse when he joined Edwards of New Jersey and Cox of Ohio in his proposition to nullify the eighteenth amendment."

"There are three and one half million voters in this country who will not vote for any man on any party ticket who favors restoration of the wine and beer glass, as against a candidate who favors the amendment and its enforcement," Baker declared.

## FIFTY KILLED AS SHIP HITS MINE

London, May 13.—Fifty persons perished when the Italian steamship Assiria struck a mine near Leghorn, said a Central News dispatch from Rome today. The Assiria was a small vessel of 1,605 tons and sailed from Genoa.

## FIGHT IN PROGRESS

Dissension Among Rebel  
Leaders Is Re-  
ported.

Vera Cruz, May 13.—With two columns of revolutionary reinforcements rushed up to the front, it is believed that the climax of the fierce battle which has been raging between the Carranzistas and Obregonistas forces at San Marcos is now at hand.

The reinforcements were commanded by General Antonio Portas and Calso Zepeda General Guadalupe Sanchez is in command of the main rebel army at San Marcos which has been engaged with the remnant of troops that remained loyal to Carranza.

Fragmentary advices from the theater of action indicated that the fight would be a decisive one and that Carranza's fate would depend on the outcome.

## Trouble Reported

El Paso, Texas, May 13.—Dissension among rebel leaders in Torreon as to who is ranking commander there has resulted in a state of anarchy, in the city it was declared by a former Carranza official who arrived here from Mexico today.

General Cesarino Castro who swung to the rebel cause when the Torreon Carranza garrison revolted has been repudiated by the garrison this official stated, and the soldiers are clamoring for "Pancho" Villa or General.

## SAYS REVOLUTION RESULT OF TRICK

New York, May 13.—The present revolution in Mexico is a result of a political trick of Venustiano Carranza, the fugitive president, that proved a boomerang, in the opinion of Vicente Blasco Ibanez, the Spanish author. Ibanez is back in New York after cancelling a proposed trip through Mexico.

"Carranza forced the hand of the rebels," Ibanez said. "He believed that if begun prematurely the revolt would fail. Despite this the revolution is progressing and Carranza is done for."

eral Joaquim Amaro to take charge of the city.

Villa and General Amaro have been ordered to take command of 2,000 Chihuahua troops for an expedition against Governor Arieta, who still is resisting the revolution in the state of Durango, it is reported.

Military chiefs at Torreon are predicting trouble among the rebels as a result of jealousy existing between General Pablo Gonzales who, they say, can never agree. Sonora troops are being rushed south to increase the showing of Obregon and to avoid a possible coup by Gonzales.

## JOIN REBEL FORCES.

Washington May 13.—Former Carranza leaders have practically all declared for the revolution in Mexico, according to reports to the revolutionary agency here today. The reports declared that there is little indication of further opposition from Carranzistas.

Reports that Saltillo has been recaptured by Carranzistas were not credited by the revolutionary agency. No reports had been received today as to the whereabouts of President Carranza.

## GRANGE MEMBER ALLEGES SENATE ALWAYS CONTROLLED

Columbus, O., May 13.—Claiming that the Ohio senate "is and always has been controlled by an invisible government," C. P. Dyer, Beverly, member of the Ohio state grange, urged adoption of an amendment to the state constitution limiting taxes and indebtedness with a view to driving tax dodgers from cover.

"We must forget the Smith one per cent tax law, the uniform taxation law and all other taxing systems and remember that there is a bigger tax problem in Ohio than any of these to settle. It is to get the fellows who don't pay taxes on the duplicate for their share," declared Dyer, addressing over 100 representatives of county farm bureaus at a conference here.

"You can get almost any sort of law from the state senate except a tax law," Dyer continued. "The interests see to it that intangible property always is protected. Get behind the right candidates for senator and representative, whether they be Republicans or Democrats. Forget that you are a Democrat or Republican and remember only that you are an American."

## MISSING DAYTON WOMAN FOUND IN HOLLOW LOG

Mushroom Hunters Find Mrs. Lina McCullough, Who Disappeared From Dayton Saturday, Near Trebeins Wednesday.

Nearly famished, and almost too weak to walk, Mrs. Lina McCullough, aged 30, wife of Bernice McCullough, 1951 North Main street, Dayton, who in a demented condition escaped from her husband at the entrance to a motion picture theatre in Dayton, Saturday night, was found by mushroom hunters, hiding in a hollow log along the banks of the Little Miami river near Trebeins Wednesday afternoon.

She told Sheriff Funderburg who took her into custody later, that she had "just walked" since she ran away from her husband, and had gone into the hollow log for shelter, "before the rain," which began falling Tuesday afternoon. She had been without food during the four days and nights.

The woman was taken to the farm home of Chester Jacobs, where she was given milk, and was then brought to his residence in Xenia by the sheriff. While Sheriff Funderburg telephoned to Dayton police and to an address in Dayton furnished him by Mrs. McCullough, the unfortunate woman was given food by Mrs. Funderburg, and made comfortable on a couch until her husband and brother came from Dayton and took her in charge at 9 o'clock. Beyond weakness, Mrs. McCullough did not show any ill effects from her four days and nights of exposure. She was comfortably clad.

Mrs. McCullough told an intelligent story to Sheriff Funderburg. She said that she had had a nervous breakdown, and for three months had been an inmate of the Dayton State Hospital. Her husband called for her Saturday night, she said to take her down town on a trip. While they were waiting in a crowd at the entrance to a motion picture house, she slipped away from him, because she did not want to return to the hospital, and walked until she crept into the hollow log. She said that she had been thinking of leaving the log and trying to reach a farm house on the opposite side of the river, to gain which she would have had to cross the trestle over which

## BRIDGEHEAD HELD AT KIEV BY POLES TO STOP SHELLING

Washington, May 13.—Polish troops have formed a bridgehead at Kiev, 15 kilometers in depth, preventing further bombardment of that city, according to a dispatch received here today from Warsaw. The dispatch announced the capture of Karalick and Rzyssnow on the Dnieper south of Kiev, together with thousands of prisoners and valuable material. The dispatch charges that Polish troops have found evidence of massacres by the bolsheviks of bourgeois and counter revolutionists in towns which have been captured. It declares that in Dytomierz fifty butchered bodies were found in one cellar.

## BOND THEFTS AND CHICAGO MURDER LINKED TOGETHER

New York, May 13.—Attorneys and detectives investigating the Arnstein bond theft involving securities valued at \$5,000,000 are working today on a theory that the slayers of Benjamin Binkowitz, absconding Wall Street messenger who got away with \$170,000 worth of bonds, are responsible also for the murder of James Colosimo, Chicago cafe owner on Tuesday. It has been disclosed here that the Italian suspected of participation in the Binkowitz murder has been arrested in Chicago and it is declared that Colosimo gave the authorities information which led to this suspect's arrest. The police here see in this a possible motive for the slaying of Colosimo.

States Attorney Macklay Hoyne, of Chicago, is coming here soon, it is reported to aid in the examination of witnesses who have been subpoenaed in the Arnstein bankruptcy proceedings.

It is intimated that he may also seek information regarding securities believed to have been placed as collateral in banks or brokerage houses in Chicago by agents of Arnstein.

## DEMORALIZATION OF TRAFFIC DUE TO RAIL POLICY

—ASSERTS JEWELL  
Acting President Of Em-  
ployes Department  
Talks.

## MUST MEET DEMANDS

Exodus of Workers To  
Other Lines Is Brought  
Out.

Washington, May 13.—Charging that the railroads alone are responsible for the demoralized condition of transportation, Bert M. Jewell, acting president of the railroad employees department of the American Federation of Labor, declared today that the "outlaw" strike is only a contributory cause to the present congestion and an acute labor shortage in all branches of the service existed before the strike due to men quitting for better paying jobs in other industries.

"The quickest way to relieve the present congestion," he said, "is for the railroads to agree to an equitable adjustment of wage demands. If they feel no obligation to the men working for them, they owe it to the public to help the men get immediate relief."

"It would seem to be that the railroads are more interested in destroying the bona fide unions than in restoring efficiency of operations."

"The railroad companies are losing nothing by the strike. Only the public and workers are suffering. The railroads don't mind strikes while the six percent guarantee effect; it is the public that is footing the bill."

According to Jewell the railroads have been sending requests to his department from 15,000 to 20,000 mechanics for at least a year. He said his department has been unable to supply those calls for the reason that good mechanics can get higher wages in other industries.

According to J. B. Malloy, of the United Brotherhood of Maintenance of Way Employees and Shop Laborers and a member of the labor board adjustment No. 3, of the United States Railroad Administration, approximately 200,000 of the 300,000 trackmen normally employed by the railroads had left the service before the "outlaw" strike going into better paying jobs.

"Mark my word if the railroad board does not act quickly to increase wages, there'll be no men left to give increases to," said Malloy. "A situation will prevail akin to one brought about by a general strike. Experienced track men are necessary to the safety of the traveling public. The fact that the railroads are working with only one third of their normal force means that the traveling public is being endangered."

Military chiefs at Torreon are predicting trouble among the rebels as a result of jealousy existing between General Pablo Gonzales who, they say, can never agree. Sonora troops are being rushed south to increase the showing of Obregon and to avoid a possible coup by Gonzales.

JOIN REBEL FORCES.

Washington, May 13.—Former Carranza leaders have practically all declared for the revolution in Mexico, according to reports to the revolutionary agency here today. The reports declared that there is little indication of further opposition from Carranzistas.

Reports that Saltillo has been recaptured by Carranzistas were not credited by the revolutionary agency.

No reports had been received today as to the whereabouts of President Carranza.

GRANGE MEMBER  
ALLEGES SENATE  
ALWAYS CONTROLLED

Columbus, O., May 13.—Claiming that the Ohio senate "is and always has been controlled by an invisible government," C. P. Dyer, Beverly member of the Ohio state grange, urged adoption of an amendment to the state constitution limiting taxes and indebtedness with a view to driving tax dodgers from cover.

"We must forget the Smith one per cent tax law, the uniform taxation law and all other taxing systems and remember that there is a bigger tax problem in Ohio than any of these to settle. It is to get the fellows who don't pay taxes on the duplicate for their share," declared Dyer, addressing over 100 representatives of county farm bureaus at a conference here.

"You can get almost any sort of law from the state senate except a tax law," Dyer continued. "The interests see to it that intangible property always is protected. Get behind the right candidates for senator and representative, whether they be Republicans or Democrats. Forget that you are a Democrat or Republican and remember only that you are an American."

MISSING DAYTON WOMAN  
FOUND IN HOLLOW LOG

Mushroom Hunters Find Mrs. Lina McCullough, Who Disappeared From Dayton Saturday, Near Trebeins Wednesday.

Nearly famished, and almost too weak to walk, Mrs. Lina McCullough, aged 30, wife of Bessie McCullough, 1951 North Main street, Dayton, who in a demented condition escaped from her husband at the entrance to a motion picture theatre in Dayton, Saturday night, was found by mushroom hunters, hiding in a hollow log along the banks of the Little Miami river near Trebeins Wednesday afternoon.

She told Sheriff Funderburg who took her into custody later, that she had "just walked" since she ran away from her husband, and had gone into the hollow log for shelter, "before the rain," which began falling Tuesday afternoon. She had

been without food during the four days and nights.

The woman was taken to the farm home of Chester Jacobs, where she was given milk, and was then brought to her residence in Xenia by the sheriff. While Sheriff Funderburg telephoned to Dayton police and to an address in Dayton furnished him by Mrs. McCullough, the unfortunate woman was given food by Mrs. Funderburg, and made comfortable on a couch until her husband and brother came from Dayton and took her in charge at 9 o'clock. Beyond weakness, Mrs. McCullough did not show any ill effects from her four days and nights of exposure. She was comfortably clad.

BRIDGEHEAD HELD  
AT KIEV BY POLES  
TO STOP SHELLING

Washington, May 13.—Polish troops have formed a bridgehead at Kiev, 15 kilometers in depth, preventing further bombardment of that city, according to a dispatch received here today from Warsaw. The dispatch announced the capture of Karalek and Rzyssesnow on the Dnieper south of Kiev, together with thousands of prisoners and valuable material. The dispatch charges that Polish troops have found evidence of massacres by the bolsheviks of bourgeois and counter revolutionists in towns which have been captured. It declares that in Dytmierz fifty butchered bodies were found in one cellar.

BOND THEFTS AND  
CHICAGO MURDER  
LINKED TOGETHER

New York, May 13.—Attorneys and detectives investigating the Arnstein bond theft involving securities valued at \$5,000,000 are working today on a theory that the slayers of Benjamin Binkowitz, absconding Wall Street messenger who got away with \$170,000 worth of bonds, are responsible also for the murder of James Colosimo, Chicago cafe owner, on Tuesday. It has been disclosed here that the Italian suspected of participation in the Binkowitz murder has been arrested in Chicago and it is declared that Colosimo gave the authorities information which led to this suspect's arrest. The police here see in this a possible motive for the slaying of Colosimo.

States Attorney Macklay Hoyne, of Chicago, is coming here soon, it is reported to aid in the examination of witnesses who have been subpoenaed in the Arnstein bankruptcy proceedings.

It is intimated that he may also seek information regarding securities believed to have been placed as collateral in banks or brokerage houses in Chicago by agents of Arnstein.

BARRACKS BURNED  
BY MASKED RAIDERS  
THROUGHOUT IRELAND

London, May 13.—The constabulary barracks at Killograney, Beesborough and Ballybrack in Ireland were attacked and burned today, according to a telegram from Dublin.

Communication between Dublin and the Irish provinces has been dislocated by wire cutting. At Beesborough half a mile from the vice regal lodge, the wires leading from the lodge were cut.

Masked raiders at Londonderry and Belfast held up tax collectors and destroyed the tax records. Military policemen made a vigorous search for raiders but secured no trace of them.

PASSENGER TRAINS  
IN PITTSBURGH RUN;  
STRIKE TALK UNTRUE

Pittsburg, Pa., May 13.—Passenger trains on all the railroads entering Pittsburg were operating on their regular schedules today and according to the officials there was no indication that the engineers and firemen would go on strike as was reported after a meeting of about 500 of the men last night. There was considerable doubt today whether a strike vote was taken last night.

Some of those who attended the meeting reported that the men had voted to quit. But this was emphatically denied by brotherhood officials, who said the story was given out "to bolster up the lost cause of the striking switchmen."

DEMORALIZATION  
OF TRAFFIC DUE  
TO RAIL POLICY  
—ASSERTS JEWELL

Acting President Of Employees Department Talks.

MUST MEET DEMANDS

Exodus of Workers To  
their Lines Is Brought  
Out.

Washington, May 13.—Charging that the railroads alone are responsible for the demoralized condition of transportation, Bert M. Jewell, acting president of the American Federation of Labor, declared today that the "outlaw" strike is only a contributory cause to the present congestion and an acute labor shortage in all branches of the service existing before the strike due to men quitting for better paying jobs in other industries.

"The quickest way to relieve the present congestion," he said, "is for the railroads to agree to an equitable adjustment of wage demands. If they feel no obligation to the men working for them, they owe it to the public to help the men get immediate relief."

"It would seem to be that the railroads are more interested in destroying the bona fide unions than in restoring efficiency of operations. 'The railroad companies are losing nothing by the strike. Only the public and workers are suffering. The railroads don't mind strikes while the six percent guarantee effect; it is the public that is footing the bill.'"

According to Jewell the railroads have been sending requests to his department from 15,000 to 20,000 mechanics for at least a year. He said his department has been unable to supply those calls for the reason that good mechanics can get higher wages in other industries.

According to J. B. Mallory, of the United Brotherhood of Maintenance of Way Employees and Shop Laborers and a member of the labor board adjustment No. 3, of the United States Railroad Administration, approximately 200,000 of the 300,000 trackmen normally employed by the railroads had left the service before the "outlaw" strike going into better paying jobs.

"Mark my word if the railroad board does not act quickly to increase wages, there'll be no men left to give increases to," said Mallory. "A situation will prevail akin to one brought about by a general strike. Experienced track men are necessary to the safety of the traveling public. The fact that the railroads are working with only one third of their normal force means that the traveling public is being endangered."

# MISSING DAYTON WOMAN FOUND IN HOLLOW LOG

(Continued from Page One)

The traction line crosses the river. The river was rising and was within a few feet of her hiding place when she was found.

Calvin and Curtis Clemmer, sons of O. R. Clemmer, of the Upper Bellbrook and a neighbor boy came across the woman while they were hunting mushrooms Wednesday afternoon. One of the boys suggested that in case of rain, they might find her in the large hollow log. They looked inside the log, and saw the woman lying there. She asked them if they had an automobile and could take her to Dayton. The boys said that they returned home and telephoned to Sheriff Funderburg. One of the boys accompanied Sheriff Funderburg and Deputy Sheriff Birch to the spot where they found the woman. She crept from the log when she was told to do so, but was so weak that she had to be almost carried to the automobile.

Mr. McCollough belongs to a good family in Dayton. Her husband, who is a bookkeeper at the Delco, told Sheriff Funderburg that she had made an attempt to kill herself by cutting her throat some time ago, and when she disappeared Saturday night it was feared that she had drowned herself in the river. Dayton police had been looking for her.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. ## PERFECT HEALTH IS YOURS

If You Have Pure Blood.

To be in a continual state of good health is the greatest of all blessings, and more to be coveted than riches. Such perfect health is not possible, however, if your blood is saturated with poisons. You may feel fine at times, but all the while the poisons are gradually undermining your whole system, and some day when it is not too late you will find yourself a physical wreck.

You know—possibly your doctor has told you—that your blood is saturated with impurities. This condition is manifested by scrofula, sores, eruptive skin and similar diseases.

Do you realize the seriousness of further neglect? Why not begin now; take Prescription C-2223, the treatment of a physician who made a study of blood diseases? This treatment has relieved thousands. It's possible that you will secure equally as good results. Suppose you do this—go to your nearest druggist today and get yourself a \$1.50 bottle of Prescription C-2223. If, after taking two bottles as directed, you have not received sufficient benefit to assure you of securing permanent benefit, take the empty bottles back to the druggist and get the \$3.00 hat you paid for the treatment.

In taking Prescription C-2223, something to regulate the bowels and assist in throwing off the poisons is necessary. 223 Liver Pills were prepared especially for this purpose. They have certain tonic effect and do not sicken or gripe. One is a dose.

If your druggist will not supply you send his name and \$1.75 for one \$1.50 bottle of Prescription C-2223 and a 25c box of 223 Liver Pills. Write Dept. 130, 2223 Laboratory, Memphis, Tenn., for literature, 1920 Almanac and sample of the Pills

## DOCTORS AND DRUGGISTS SAY TAKE GOOD SPRING TONIC NOW

And in Choosing a Spring Tonic One Should Be Sure To Take a Reliable Medicine of Proven Merit.

## NERV-WORTH

Has Stood the Test of Years. Thousands of Users Here at Home Have Testified To Its Wonderful Merit and Proclaimed It the "Miracle Medicine." Physicians Have Endorsed It—Don't Make Experiments On Unheard Of Things. Be Sure To Get Nerv-Worth, the Remedy That Has Stood the Test of Years.

Dr. G. W. Aams said: "I can recommend Nerv-Worth, it is fine for nervousness, indigestion or ills attending neurasthenia."

## STOMACH EVILS

The miseries of a bad stomach are suffered by thousands. Food improperly digested falls to give nourishment. The whole system becomes run-down. Gas on the stomach, pains, vomiting spells, dizziness, indigestion, dyspepsia all readily give way to Nerv-Worth. Don't suffer longer. A proof of the merits of Nerv-Worth is found in the statements of people who have been benefited. A new neighborhood Nerv-Worth endorserment of this famous family tonic appears in these columns almost every day.

## SUCCESSFUL REBUILDER

Spring finds many people run-down, listless, nervous and suffering from that consistent "fired, draggy feeling." Their stomachs have become disordered, their food seems to fail to give proper nourishment, their nerve force is low, they lack their former vigor. They should take a good tonic adapted to the treatment of these conditions. Nerv-Worth is the tonic that meets these requirements and acts scientifically to restore normal health and vigor. It straightens up the stomach, neutralizes excess acids, drives out accumulated impurities, gives nerve force, tones and invigorates the whole system. A well known druggist said a short time ago: "Nerv-Worth is the most successful of any preparation I have ever offered to my customers." Its results are quick and effective. Statements from people near home prove conclusively that Nerv-Worth really does the work.

Contains no opiates, narcotics, coal tar products, no habit-forming drugs. Pleasant to take.

Dr. N. B. Ferguson said: "Nerv-Worth is truly a great remedy. It proves a great boon to sufferers from trouble."

## LACK OF NERVE FORCE

HEALTH, VIGOR AND VITALITY. Fortunately the sufferer's lack of nerve force need not condemn him to endless ill health, nor to an untimely end. For Nerv-Worth, the famous root and plant nerve tonic has wonderful power to make over wrecked nerves and to restore debilitated organs. Nerv-Worth steadies and strengthens the nerves, whets the appetite, adds flesh, aids digestion, rouses the liver, regulates the bowels, restores restless sleep, banishes sick and nervous headache and other aches and pains, builds up run-down systems.

Sold and guaranteed by Sayre & Hemphill, and druggists everywhere.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

## PERFECT HEALTH IS YOURS

If You Have Pure Blood.

To be in a continual state of good health is the greatest of all blessings, and more to be coveted than riches. Such perfect health is not possible, however, if your blood is saturated with poisons. You may feel fine at times, but all the while the poisons are gradually undermining your whole system, and some day when it is not too late you will find yourself a physical wreck.

You know—possibly your doctor has told you—that your blood is saturated with impurities. This condition is manifested by scrofula, sores, eruptive skin and similar diseases.

Do you realize the seriousness of further neglect? Why not begin now; take Prescription C-2223, the treatment of a physician who made a study of blood diseases? This treatment has relieved thousands. It's possible that you will secure equally as good results.

Suppose you do this—go to your nearest druggist today and get yourself a \$1.50 bottle of Prescription C-2223. If, after taking two bottles as directed, you have not received sufficient benefit to assure you of securing permanent benefit, take the empty bottles back to the druggist and get the \$3.00 hat you paid for the treatment.

In taking Prescription C-2223, something to regulate the bowels and assist in throwing off the poisons is necessary. 223 Liver Pills were prepared especially for this purpose. They have certain tonic effect and do not sicken or gripe. One is a dose.

If your druggist will not supply you send his name and \$1.75 for one \$1.50 bottle of Prescription C-2223 and a 25c box of 223 Liver Pills. Write Dept. 130, 2223 Laboratory, Memphis Tenn., for literature, 1920 Almanac and sample of the Pills.

## DOCTORS AND DRUGGISTS SAY TAKE GOOD SPRING TONIC NOW

And in Choosing a Spring Tonic One Should Be Sure To Take a Reliable Medicine of Proven Merit.

## NERV-WORTH

Has Stood the Test of Years. Thousands of Users Here at Home Have Testified To Its Wonderful Merit and Proclaimed It the "Miracle Medicine." Physicians Have Endorsed It—Don't Make Experiments On Unheard Of Things. Be Sure To Get Nerv-Worth, the Remedy That Has Stood the Test of Years.

Dr. G. W. Aams said: "I can recommend Nerv-Worth, it is fine for nervousness, indigestion or ill attending neurasthenia."

## STOMACH EVILS

The miseries of a bad stomach are suffered by thousands. Food improperly digested fails to give nourishment. The whole system becomes run-down. Gas on the stomach, pains, vomiting spells, dizziness, indigestion, dyspepsia all readily give way to Nerv-Worth. Don't suffer longer. A proof of the merits of Nerv-Worth is found in the statements of people who have been benefited. A new neighborhood Nerv-Worth endorsement of this famous family tonic appears in these columns almost every day.

## SUCCESSFUL REBUILDER

Spring finds many people run-down, listless, nervous and suffering from that consistent "tired, draggy feeling." Their stomachs have become disordered, their food seems to fail to give proper nourishment, their nerve force is low, they lack their former vigor. They should take a good tonic adapted to the treatment of these conditions. Nerv-Worth is the tonic that meets these requirements and acts scientifically to restore normal health and vigor. It straightens up the stomach, neutralizes excess acids, drives out accumulated impurities, gives nerve force, tones and invigorates the whole system. A well known druggist said a short time ago: "Nerv-Worth is the most successful of any preparation I have ever offered to my customers." Its results are quick and effective. Statements from people near home prove conclusively that Nerv-Worth really does the work.

Contains no opiates, narcotics, coal tar products, no habit-forming drugs. Pleasant to take.

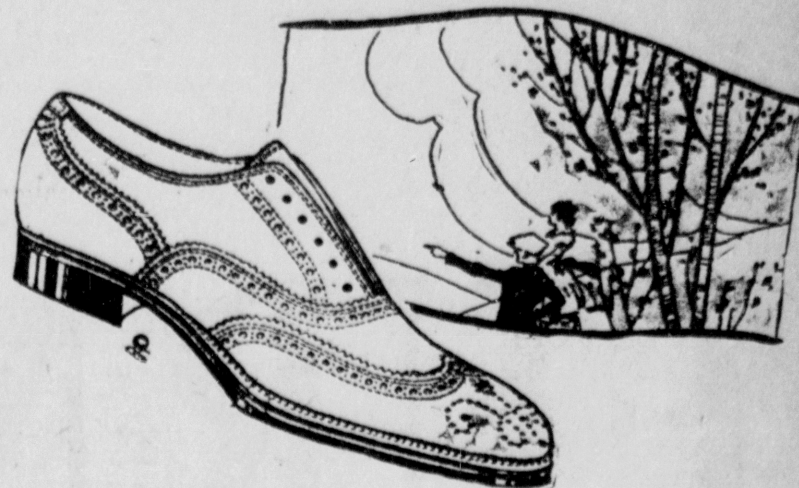

Dr. N. B. Ferguson said: "Nerv-Worth is truly a great remedy. It proves a great boon to sufferers from trouble."

## LACK OF NERVE FORCE

HEALTH, VIGOR AND VITALITY

Fortunately the sufferer's lack of nerve force need not condemn him to endless ill health, nor to an untimely end, for Nerv-Worth, the famous root and plant nerve tonic has wonderful power to make over wrecked nerves and to restore debilitated organs. Nerv-Worth steadies and strengthens the nerves, whets the appetite, adds flesh, aids digestion, restores the liver, regulates the bowels, restores restful sleep, banishes sick and nervous headache and other aches and pains, builds up run-down systems.

Sold and guaranteed by Sayre & Hemphill, and druggists everywhere.

## Like a Novelty?

Most young men like shoes a bit different. That's what makes this blunt-toed, wing tipped style so popular this Spring. It's broad across the ball of the foot to accommodate feet that got used to spreading \$9 AND \$15 out in army shoes. A pair .....

## LET THE "GOLDEN MEDIUM" PREVAIL AT THE CHICAGO CONVENTION.

Why is a medium course of action often called the "golden medium?" Because those who take extreme views are often wrong. We have a case in point right now in our political policy in this country in the matter of the League of Nations as connected with the Versailles German treaty.

President Wilson insists that the Treaty and the League should be adopted by our Senate without the change of dotting an I or crossing a T. On the contrary, Senator Philander C. Knox and his followers condemn the League in the most virulent terms as if a league with the devil. But between these extremists comes the great body of the American people which says that the Treaty and the League with certain Reservations, as proposed by Senator Lodge are all right and should be adopted. These latter, common sense and justice accord as having the "golden medium" view of the case. And if so, there should be a general acceptance of the matter in this light. There should be an earnest effort to fraternize public opinion on this view of the vexed question, to the end that our nation may do its duty on one of the important movements of the age.

Another name for Self-Will is selfishness. There is nothing magnanimous about it. It is the spirit of "rule or ruin"—and often results in the latter, to its shame. Self-Will means envy, malice and bitterness of spirit such as usually found in the hearts of wicked men. These are certainly not desirable traits of character, and those who have them are mostly voted "Undesirables."

The prospects of a lively fight in the Chicago convention over the treaty plank in the Republican platform have been greatly increased by a statement from Senator William E. Borah, of Idaho, leader of the irreconcilable party opponents.

Senator Borah declared that nothing short of an absolute condemnation of the treaty and League of Nations will satisfy the wing of the party to which he belongs.

It was intimated that unless the convention takes a stand along these lines there will be a revolt which may split the party wide open.

Of course this is aimed at the announcement that Senator Henry Cabot Lodge, Republican leader, will sound the key note at the Chicago convention and that a plank indorsing the peace treaty and the league covenant with the reservations supported by the Republican majority in the Senate would be inserted in the platform.

We trust that the majority holding these sentiments will stand by their guns, and endorse this view of the important question. Let the "Golden Medium" prevail, though the irreconcilables kick as hard as they please.

## After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vicks' Vapo-Rub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hangs on so long—the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say—"There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vicks' VapoRub usually helps to lessen the violence of the coughing, but it is during convalescence that Vicks is most valuable.

Because Vicks acts locally by stimulation thru the skin to

draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying swallow a small bit the size of a pea.

Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended, since it is externally applied and so can be used often and freely without the slightest harmful effects.

Samples to new users will be sent free on request to the Vicks Chemical Company, 234 Broad Street, Greensboro, N. C.

### TODAY'S LETTERS

Mrs. H. F. C.—As no self-addressed, stamped envelope was enclosed in your letter, I imagine you wish the answer to appear in this space. The formula for the blackhead cleansing powder is:

2 parts wheat or corn starch  
1 part almond meal  
1 part powdered borax.  
Mix these ingredients and keep the powder in a box or jar. When you have opened the pores of the skin by holding hot wet cloths over the face, rub in some of this powder with the finger tips. Rinse off with hot water, then with cold. Unless you have a very oily skin you will have to use cold cream after the hot rinse now and then as this powder is necessarily drying.

Anxious Enquirer—I think you need nothing but a few months of dieting, eating but little meat and no sweets and living mostly on fresh fruits, vegetables and dairy foods. Drink plenty of water every day—your skin shows that the blood needs purifying. Probably the trouble is simply one of improper diet.

Nervous—I cannot remember recommending any special book to be read by self-conscious people—I think my advice has usually been for such people to try and become conceited, or egotistic. Not that I approve of conceit any more than most do; I recommend it only for its psychological effect. No conceited person was ever self-conscious and tongue tied in the presence of an audience! Perhaps you might profit by finding some of your own good points—improving your opinion of yourself and your abilities.

Edna H.—The blackhead cleansing powder given above is also good for a shiny nose, as it absorbs the unusual amount of oil in the skin.

S. of S.—You need the blackhead cleansing powder also, for large black pores in the nose.

Fanny—Since you have had scarlet fever, I would certainly advise cutting your hair. Fever is very bad for the hair, and you will lose most of yours if your temperature was much above normal. Have your hair cut short, let it grow so it looks bobbed, and keep it that length a year. Meantime use a hair tonic. Send me a letter, with a self-addressed, stamped envelope enclosed, for my formula for such a tonic.

Miss Tracy—I have no formula for liquid rouge—these are so drying that they are not good for the skin. Dry powder rouge is really the least harmful. If you powder well first, wiping off the powder, then use rouge and powder again, you will find it will cling longer to your skin.

## FIRE BREAKS OUT IN HOME OF LATE C. L. MAXWELL

While friends were sitting up with the body of the late C. L. Maxwell, for whom funeral services were held today, fire broke out in the hall on the second floor of the Maxwell home at 11:45 Wednesday night.

The conflagration started from spontaneous combustion in a closet at the head of the stairs, and was blazing high when discovered by the late Mr. Maxwell's son-in-law, Mr. Clemens, who notified the fire department.

The hall was badly burned and the closet, with its contents of clothes, amounting to several hundred dollars worth, was completely burned out. The flames penetrated a transom into one of the rooms burning out part of the doorway, but the blaze was practically confined to the hallway. Much of the loss was due to water thrown by the department in checking the conflagration.

The body of Mr. Maxwell was removed from the house. The flames did not extend to that room although water penetrated to it through the ceiling. The department was at the scene for about an hour.

## GENERAL ASSEMBLY NAMES XENIA PASTOR

Edwin Tinney was named as pastor of the Nazarene Church in this city, at Wednesday's session of the general assembly of that church held in Marion, Ohio.

The naming of organization committees, transferring and assignments of pastors, occupied the entire session. Rev. J. W. Henry was transferred to the Ohio-Pittsburgh district from the Kentucky district and Rev. W. Heinsinger was transferred to the Kentucky district.

"I'm going to buy a new pair of trousers for you, and you shall choose them. Which pair do you want?"

"Please, father," said the boy, after a careful inspection of all those within sight, "may I have the pair marked 'Cannot be beaten'?"

A small girl in a street car was trying to say something which her mother appeared to be greatly trying to suppress.

Several times the little one started and each time the mother leaned over to her and enjoined silence.

When the mother thought her child had been effectually squelched the youngster blurted out:

"I don't care. That lady over there says 'AINT' and it goes 'ISNT'."

Mae Smythe was suing for breach of promise. During the cross-examination she was asked: "Did the defendant send you any letters?"

"Yes, sir," answered the fair Mae. "Did he use loving words?"

"Did he! I'll say so! He always called me his dear, and ended by telling me he belonged to me."

And when the court had the letters read, it was found he had addressed her as "My Dear Miss Smythe" and that he had signed them "Very truly yours."—Life.

## WINS GOLD MEDAL FOR THIRD TIME

Douglas Custis, manager of the Xenia District for the Mutual Life Insurance Company of New York City, has for the third consecutive year won the gold medal presented by his company for the meritorious work.

As a further reward, he will be one out of six honor men in the Cincinnati district, who will leave Monday, May 17, for New York City to attend the Mutual Company's convention which will be held at the Waldorf Astoria Hotel, May 20 and 21. He will be gone about a week.

The influenza epidemic and the government advertising of life insurance have assisted in causing a great amount of insurance to be bought, said Mr. Custis Thursday. He now carries a million dollars worth of insurance for his company in Greene county, a major part of which is carried by farmers.

## LET THE "GOLDEN MEDIUM" PREVAIL AT THE CHICAGO CONVENTION.

Why is a medium course of action often called the "golden medium?" Because those who take extreme views are often wrong. We have a case in point right now in our political policy in this country in the matter of the League of Nations as connected with the Versailles German treaty.

President Wilson insists that the Treaty and the League should be adopted by our Senate without the change of dotting an I or crossing a T. On the contrary, Senator Philander C. Knox and his followers condemn the League in the most virulent terms as if a league with the devil. But between these extremists comes the great body of the American people which says that the Treaty and the League with certain Reservations, as proposed by Senator Lodge are all right and should be adopted. These latter, common sense and justice accord as having the "golden medium" view of the case. And if so, there should be a general acceptance of the matter in this light. There should be an earnest effort to fraternize public opinion on this view of the vexed question, to the end that our nation may do its duty on one of the important movements of the age.

Another name for Self-Will is selfishness. There is nothing magnanimous about it. It is the spirit of "rule or ruin"—and often results in the latter, to its shame. Self-Will means envy, malice and bitterness of spirit such as usually found in the hearts of wicked men. These are certainly not desirable traits of character, and those who have them are mostly voted "Undesirables."

The prospects of a lively fight in the Chicago convention over the treaty plank in the Republican platform have been greatly increased by a statement from Senator William E. Borah, of Idaho, leader of the irreconcilable party opponents.

Senator Borah declared that nothing short of an absolute condemnation of the treaty and League of Nations will satisfy the wing of the party to which he belongs.

It was intimated that unless the convention takes a stand along these lines there will be a revolt which may split the party wide open.

Of course this is aimed at the announcement that Senator Henry Cabot Lodge, Republican leader, will sound the key note at the Chicago convention and that a plank indorsing the peace treaty and the league covenant with the reservations supported by the Republican majority in the Senate would be inserted in the platform.

We trust that the majority holding these sentiments will stand by their guns, and endorse this view of the important question. Let the "Golden Medium" prevail, though the irreconcilables kick as hard as they please.

## After Whooping Cough—What?

This is No. 4 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Whooping cough is the "meanest" disease that childhood is heir to. While rarely fatal in itself, except to children under two years of age, still it hangs on so long—the coughing paroxysms are so violent, preventing proper sleep and digestion—that when the disease does disappear it leaves the child weakened and run down. In addition the violent coughing racks and strains the air passages and after recovery this irritation frequently remains.

During this period of convalescence the child should be most carefully watched until full strength is restored and the air passages regain their normal tone. A prominent authority even goes so far as to say: "There is more criminal neglect in connection with whooping cough than with any other disease."

While the disease is active, Vick's Vapo-Rub usually helps to lessen the violence of the coughing, but it is during convalescence that Vick's is most valuable.

Because Vick's acts locally by stimulation thru the skin to

draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition the medicinal ingredients of Vick's are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying swallow a small bit the size of a pea.

Children's digestions are delicate—easily disturbed by too much "dosing." Vicks, therefore, is particularly recommended, since it is externally applied and so can be used often and freely without the slightest harmful effects.

Samples to new users will be sent free on request to the Vick Chemical Company, 234 Broad Street, Greensboro, N. C.

## BEAUTY CHATS

### TODAY'S LETTERS

Mrs. H. F. C.—As no self-addressed, stamped envelope was enclosed in your letter, I imagine you wish the answer to appear in this space. The formula for the blackhead cleansing powder is:

2 parts wheat or corn starch  
1 part almond meal  
1 part powdered borax.  
Mix these ingredients and keep the powder in a box or jar. When you have opened the pores of the skin by holding hot wet cloths over the face, rub in some of this powder with the finger tips. Rinse off with hot water, then, with cold. Unless you have a very oily skin you will have to use cold cream after the hot rinse now and then as this powder is necessarily drying.

Anxious Enquirer—I think you need nothing but a few months of dieting, eating but little meat and no sweets and living mostly on fresh fruits, vegetables and dairy foods. Drink plenty of water every day—your skin shows that the blood needs purifying. Probably the trouble is simply one of improper diet.  
Nervous—I cannot remember recommending any special book to be read by self-conscious people—I think my advice has usually been for such people to try and become conceited, or egotistic. Not that I approve of conceit any more than most do; I recommend it only for its psychological effect. No conceited person was ever self-conscious and tongue tied in the presence of an audience! Perhaps you might profit by finding some of your own good points—improving your opinion of yourself and your abilities.

Edna H.—The blackhead cleansing powder given above is also good for a shiny nose, as it absorbs the unusual amount of oil in the skin.

S. of S.—You need the blackhead cleansing powder also, for large black pores in the nose.

Fanny—Since you have had scarlet fever, I would certainly advise cutting your hair. Fever is very bad for the hair, and you will lose most of yours if your temperature was much above normal. Have your hair cut short, let it grow so it looks bobbed and keep it that length a year. Meantime use a hair tonic. Send me a letter, with a self-addressed, stamped envelope enclosed, for my formula for such a tonic.

Miss Tracy—I have no formula for liquid rouge—these are so drying that they are not good for the skin. Dry powder rouge is really the least harmful. If you powder well first, wiping off the powder, then use rouge and powder again, you will find it will cling longer to your skin.

## FIRE BREAKS OUT IN HOME OF LATE C. L. MAXWELL

While friends were sitting up with the body of the late C. L. Maxwell, for whom funeral services were held today, fire broke out in the hall on the second floor of the Maxwell home at 11:45 Wednesday night.

The conflagration started from spontaneous combustion in a closet at the head of the stairs, and was blazing high when discovered by the late Mr. Maxwell's son-in-law, Mr. Clemens, who notified the fire department.

The hall was badly burned and the closet, with its contents of clothes, amounting to several hundred dollars worth, was completely burned out. The flames penetrated a transom into one of the rooms burning out part of the doorway, but the blaze was practically confined to the hallway. Much of the loss was due to water thrown by the department in checking the conflagration.

The body of Mr. Maxwell was removed from the house. The flames did not extend to that room although water penetrated to it through the ceiling. The department was at the scene for about an hour.

# POLICE BELIEVE CAPTURED TRIO ROBBED STATION

William D. Long, alias William Weston, alias William Puckett and James LaMar, alias William Corbin, giving their addresses as Xenia, and Harvey Porter alias Dewey Rash, of Covington, Ky., arrested in Cincinnati last week in company, with Oca Shanks, alias Puckett, 16 who also gave her address as Xenia, and another whom she claims to be her sister, are now believed by Dayton police to be the trio who stole the automobile of H. E. Schoenberger, Dayton druggist, and then held up and robbed the filling station of the Ohio Cities Gas Co., operated by John Wassum, at Wayne and Xenia avenues, several days ago.

Efforts are now being made by Dayton police to secure the release of the three men from the Cincinnati work house where they are serving a 30 day sentence on a loitering charge, and if they are successful, the men will be brought to Dayton, and two separate charges of stealing an automobile and of robbery will be placed against them. Copies of warrants for the men have been sent to Cincinnati authorities. Wassum it is said went to Cincinnati and identified one of the men.

Stealing Schoenberger's automobile, the trio is alleged to have held up and robbed Wassum at the filling station of \$150 in cash. They were chased by Dayton police to the "big woods" on the Dayton-Xenia pike, where they abandoned their car and took to the woods. The men were arrested in a house on East Fifth street, Cincinnati, last week, under suspicious circumstances, and were sent to the work house on loitering charges. Although two of the men gave their addresses as Xenia, as did the girl who was with them, when arrested, none of these names are listed in the city directory.

Mr. Heinrichs Was Ready To Give Up. Then He Found How to Regain Health.

"My first sleep in 3 months was on the second night after I began using Milks Emulsion. I had had a bad case of stomach trouble and constipation for years and was ready to give up. I was troubled with gas, dizziness, bloating after eating, gnawing sensation and cramps in the stomach. OSWEGOS TO PLAY METEORS ON SUNDAY

The Dayton Oswegos, will furnish opposition for the Xenia Meteors on the Cincinnati avenue lot next Sunday afternoon, the game being scheduled to start at 2:30.

The Oswegos come well recommended, having won the championship of Dayton in their class last year, and having already started the present season victoriously. They are also anxious for revenge on the local pill tossers, as the Meteors handed them an overwhelming defeat during the basketball season, defeating the Gem City lads 31 to 8.

The locals are rounding into form and in hooking up with an outfit of their own size and class, they hope to show their real strength at Reserve Park, Sunday.

GOOD HOUSEKEEPERS USE BEST That is why they use Red Cross Ball Blue. All leading grocers. 5 cents.

Delicate Mothers

Vinol, our Cod Liver and Iron Tonic, is the best remedy for Nervous, Run-Down, Anaemic Conditions.

This Letter Proves It.

Kenton, Del. — "I suffered from a nervous, run-down condition and no appetite. I keep house and live on a farm so had to keep about my work. I have five in the family. My druggist recommended Vinol as the best medicine for my condition. I felt better after taking the first bottle. It has given me a good appetite, I sleep better and feel stronger in every way." — Mrs. J. HERMAN WILDS.

It is the Beef and Cod Liver Peptones contained in Vinol aided by Iron and Hypophosphites which makes it such a famous blood-maker, nerve builder and strength creator. Besides Vinol is not a secret medicine. Its full formula is printed on each package.

FORESIGHT

The policy of the Cities Service Company for many years past has been to acquire large tracts of undeveloped oil lands in order to build up a reserve for their program of continuous expansion. It took courage to do this in the face of adverse criticism, but the vision of Henry L. Doherty, president of the Cities Service Company, has proved of incalculable worth.

Today this enormous amount of reserve acreage acquired in the United States, Mexico and South America places the Cities Service Company in a position envied by all the larger oil corporations.

We recommend Cities Service Bankers Shares as a most attractive investment and will be glad to send you a circular descriptive of this issue.

# POLICE BELIEVE CAPTURED TRIO ROBBED STATION

William D. Long, alias William Weston, alias William Puckett and James LaMar, alias William Corbin, giving their addresses as Xenia, and Harvey Porter alias Dewey Rash, of Covington, Ky., arrested in Cincinnati last week in company, with Oca Shanks, alias Puckett, 16 who also gave her address as Xenia, and another whom she claims to be her sister, are now believed by Dayton police to be the trio who stole the automobile of H. E. Schoenberger, Dayton druggist, and then held up and robbed the filling station of the Ohio Cities Gas Co., operated by John Wassum, at Wayne and Xenia avenues, several days ago.

Efforts are now being made by Dayton police to secure the release of the three men from the Cincinnati work house where they are serving a 30 day sentence on a loitering charge, and if they are successful, the men will be brought to Dayton, and two separate charges of stealing an automobile and of robbery will be placed against them. Copies of warrants for the men have been sent to Cincinnati authorities. Wassum it is said went to Cincinnati and identified one of the men.

Stealing Schoenberger's automobile, the trio is alleged to have held up and robbed Wassum at the filling station of \$150 in cash. They were chased by Dayton police to the "big woods" on the Dayton-Xenia pike, where they abandoned their car and took to the woods. The men were arrested in a house on East Fifth street, Cincinnati, last week, under suspicious circumstances, and were sent to the work house on loitering charges. Although two of the men gave their addresses as Xenia, as did the girl who was with them, when arrested, none of these names are listed in the city directory.

Mr. Heinrichs Was Ready To Give Up. Then He Found How to Regain Health.

"My first sleep in 3 months was on the second night after I began using Milks Emulsion. I had had a bad case of stomach trouble and constipation for years and was ready to give up. I was troubled with gas, dizziness, bloating after eating, gnawing sensation and cramps in the stomach. Milks Emulsion was a God-send to me, and I want everyone to know about a medicine that will cure cases like mine."—C. E. Heinrichs, 702 S. Alabama St., Indianapolis, Ind.

Thousands of sufferers from catarrh of the stomach, indigestion and bowel troubles, have found that Milks Emulsion gives prompt relief and real lasting benefit. Milks Emulsion is a pleasant, nutritive food and a corrective medicine. It restores healthy, natural bowel action, doing away with all need of pills and physics. BY JANE PHELPS

**ZENA'S MOTHER OBJECTS**  
Chapter 10  
Of course Mother found out I had written to Kenneth Lawrence. One day she asked me if I had heard from him again, and without thinking I replied:  
"Not yet, he's hardly had time." You see, I wasn't used to deceiving Mother.  
"What do you mean?" she asked, a startled look in her eyes. "Not time?"  
"To answer my letter."  
"So you replied to him, did you, Zena? I thought you understood I disapproved."  
"But why, Mother? He's a nice, moral young man, isn't he?"  
That was one of Mother's own expressions. "A nice moral young man."  
"He may be all that. I believe he is or Mrs. Shephard would not have entertained him as she did—even if he were a relative. But it isn't necessary for you to correspond with every nice young man you meet."  
"Of course it isn't, Mother! And I don't intend to. But I didn't see any harm in answering Kenneth's—Mr. Lawrence's letter."  
"That is right, Zena, don't allow yourself to form the habit of speaking of mere acquaintances by their given names. I am glad to see you correct yourself. I hope now that you have answered his letter, that it will be the end of the acquaintance, even if he replies."  
I was delighted that Mother again required no promise. It was a little way she had of taking things for

granted—what she thought right was to be done.  
I did not tell her I had shown Dad the letter I had written Kenneth. It might bring the old dear in for a bad 15 minutes because he had not discouraged me.  
I knew Mother, once having spoken as she did, was not likely to talk of it again unless something I did brought it to her attention. But once more she helped to do what she was trying to undo. Sounds queer, but it was so. She made me think of Kenneth a lot more than if she had let me talk about him with her.  
Two or three times I had a terribly close shave. I almost spoke his name when Mumsie and I were together. Oh, yes, we had them, lots of them, even if Mother was a bit severe with me.  
It is rather nice, being an only child, in some respects. You get all the love and attention, instead of having it cut up like a pie in quarters or sixths—and you getting only your piece because if you had more there wouldn't be enough to go around.  
Of course it has its disadvantages, too. You don't have any brothers or sisters to play with, or to run about with when you get older. Neither do you have anyone to be blamed for things. So I guess it sort of evens up, after all.  
Edith Wren had two brothers and a sister. She seemed to love them dearly, although they quarreled a lot. I asked her once why she quarreled with them, and she said:  
"Oh, brothers and sisters always

fight. But we don't mean a thing. It is a way of letting off steam, I guess, when there is a big family. We love each other dearly. I'd be so lonesome I would die if I were all alone like you are."  
I wasn't so lonesome, and told her so.  
"You would be if you ever had had any family. You don't know what fun we have. Then you see Zena, when you get married and leave home your poor Father and Mother will be all alone—unless you go right on living with them. And my grandmother says that isn't wise things sometimes. She says there never was a house built big enough to hold two bosses."  
"Then it must be such fun when you get married to have a home of one's very own—to select all the furniture and hangings and have just the colors you want and everything. Just see how lovely Rose Hartman's little home is, and Harry isn't a bit rich either. I asked Father. He said Harry only makes about \$8,000 or \$10,000, and you know one can't have everything on that. But I'd rather marry a poor man like Rose did and have a home of my own, than to live with anyone."  
Right then and there I made up my mind I would never live with anyone either—not even dear Father and Mother. And I couldn't help but wonder if having \$8,000 or \$10,000 was being really poor—Kenneth Lawrence didn't have as much as that, I was sure.

# Brenlin

the long-wearing window shade material

## Window shade material that won't show cracks and pinholes

Get good shades—made to wear! Ordinary window shades don't withstand the constant wear, the strains and pulls of everyday usage. They show cracks and pinholes. They fade and sag and make all your windows look dilapidated.

Brenlin window shades are different. They stand everyday usage—and hard usage twice as long as ordinary shades!

**How to test the durability of shades before you buy**

Fold a piece of ordinary shade material. Open it up and hold it to the light. All along the fold there will be cracks and pinholes. Now come and let us give you a piece of Brenlin, the long-wearing window shade material; to fold. Open it up and hold it to the light. Not a crack or pinhole in it!

And the secret of it is, Brenlin window

shades are made right! They're not a cheap material like the ordinary shade, coated over by chalk and paint that cakes and falls out with a few gusts of wind.

They're made of a fine, closely woven cloth, with no filling of chalk or clay or anything else. The cloth is covered only by the finest of colors in a great variety of attractive mellow tones. Consequently, the finished shades remain so flexible and soft that they don't break and show cracks and pinholes.

**How to be sure you're getting Brenlin**

Ask us to show you Brenlin shades. Look for the name perforated on the edge of every yard.

Come in today and let us show you at what small cost we can furnish you with Brenlin window shades. Their durability makes them a wonderful economy.

**Candied Sweet Potatoes**—Pare and cut in halves about six large sweet potatoes and boil in salt water until almost but not quite done, and drain. Lay in a skillet with hot butter and cover with brown sugar and let simmer about half an hour, or until brown and crisp on the outside.

**Boiled Ham**—Soak several hours or in cold water to cover. Wash thoroughly, trim off hard skin, put in a kettle, cover with cold water, heat to the boiling point and cook slowly

until tender. This will require about an hour for every three pounds.

#### GOOD LUNCHEON DISHES

**Baked Baby Lima Beans**—Wash in plenty of warm water one and one-half cups of dried baby lima beans, discarding all bruised and damaged beans. Place in large bowl or sauce pan and cover at least two inches deep with warm water. Soak over night. Now, in the morning, parboil for five minutes. Drain, cover with boiling water and parboil again. Now, while the beans are boiling, mince very fine six onions, two green peppers, one bunch of pot herbs and four branches of celery. Place three-fourths cup of salad oil in the frying pan, and when hot add the prepared seasoning. Cook slowly until onions are soft. Now add one and one-half cups of thick tomato pulp, one level teaspoon of salt, one level teaspoon of pepper and one level teaspoon of mustard. Now drain beans. Turn into baking dish. Add the prepared seasoning and sufficient boiling water to cover beans one inch deep. Bake in moderate oven two and one-half hours. This amount will serve family of five for two meals.

**Stuffed Peppers**—One and one-half tablespoons butter, one and one-half tablespoons flour, one cup milk, one-half cup walnut meats, one-half cup bread crumbs, one-half cup chicken, veal or ham, one-quarter cup green pepper, one-quarter cup celery, two teaspoons onion, one teaspoon salt, one-eighth teaspoon pepper, four large or six small green peppers, one-half cup buttered crumbs.

Make a sauce of the butter, flour and milk. Add walnut meats cut in pieces, soft bread crumbs, meat, green pepper, celery and onion finely chopped, and salt and pepper.

Remove stem end and seeds from peppers, fill with mixture, cover with buttered crumbs and bake in a moderate oven until peppers are soft.

### ZENA'S MOTHER OBJECTS

Chapter 10

Of course Mother found out I had written to Kenneth Lawrence. One day she asked me if I had heard from him again, and without thinking I replied:

"Not yet, he's hardly had time."

You see, I wasn't used to deceiving Mother.

"What do you mean?" she asked, a startled look in her eyes, "Not time?"

"To answer my letter."

"So you replied to him, did you, Zena? I thought you understood I disapproved."

"But why, Mother? He's a nice, moral young man, isn't he?"

That was one of Mother's own expressions. "A nice moral young man."

"He may be all that, I believe he is or Mrs. Shephard would not have entertained him as she did—even if he were a relative. But it isn't necessary for you to correspond with every nice young man you meet."

"Of course it isn't, Mother! And I don't intend to. But I didn't see any harm in answering Kenneth's—Mr. Lawrence's letter."

"That is right, Zena, don't allow yourself to form the habit of speaking of mere acquaintances by their given names. I am glad to see you correct yourself. I hope now that you have answered his letter, that it will be the end of the acquaintance, even if he replies."

I was delighted that Mother again required no promise. It was a little way she had of taking things for

granted—what she thought right was to be done.

I did not tell her I had shown Dad the letter I had written Kenneth. It might bring the old dear in for a bad 15 minutes because he had not discouraged me.

I knew Mother, once having spoken as she did, was not likely to talk of it again unless something I did brought it to her attention. But once more she helped to do what she was trying to undo. Sounds queer, but it was so. She made me think of Kenneth a lot more than if she had let me talk about him with her.

Two or three times I had a terribly close shave. I almost spoke his name when Mumie and I were together. Oh, yes, we had them, lots of them, even if Mother was a bit severe with me.

It is rather nice, being an only child, in some respects. You get all the love and attention, instead of having it cut up like a pie in quarters or sixths—and you getting only your piece because if you had more there wouldn't be enough to go around.

Of course it has its disadvantages, too. You don't have any brothers or sisters to play with, or to run about with when you get older. Neither do you have anyone to be blamed for things. So I guess it sort of evens up, after all.

Edith Wren had two brothers and a sister. She seemed to love them dearly, although they quarreled a lot. I asked her once why she quarreled with them, and she said:

"Oh, brothers and sisters always

fight. But we don't mean a thing. It is a way of letting off steam, I guess, when there is a big family. We love each other dearly. I'd be so lonesome I would die if I were all alone like you are."

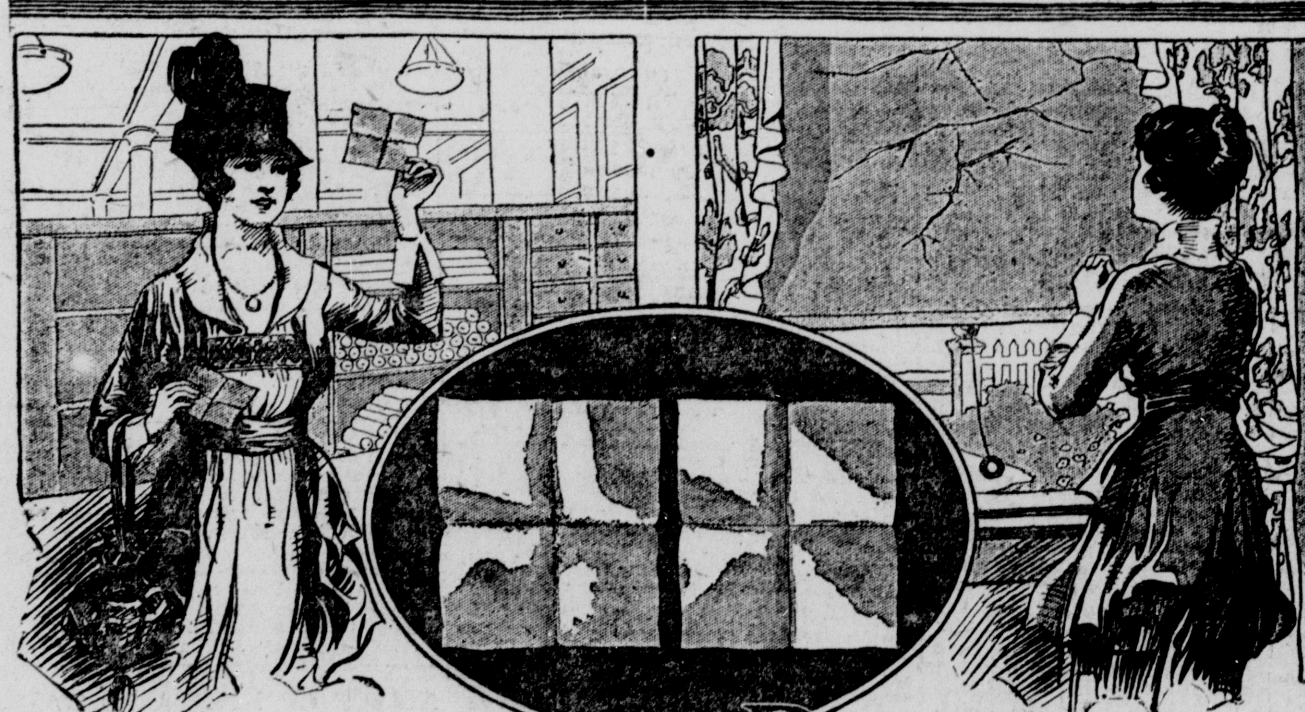

I wasn't so lonesome, and told her so.

"You would be if you ever had had any family. You don't know what fun we have. Then you see Zena, when you get married and leave home your poor Father and Mother will be all alone—unless you go right on living with them. And my grandmother says that isn't wise—ever. She says awfully funny things sometimes. She says there never was a house built big enough to hold two bosses."

"Then it must be such fun when you get married to have a home of one's very own—to select all the furniture and hangings and have just the colors you want and everything. Just see how lovely Rose Hartman's little home is, and Harry isn't a bit rich either. I asked Father. He said Harry only makes about \$8,000 or \$10,000, and you know one can't have everything on that. But I'd rather marry a poor man like Rose did and have a home of my own, than to live with anyone."

Right then and there I made up my mind I would never live with anyone either—not even dear Father and Mother. And I couldn't help but wonder if having \$8,000 or \$10,000 was being really poor—Kenneth Lawrence didn't have as much as that, I was sure.

Tomorrow—Jack Fryer Proposes

Brenlin the long-wearing window shade material

Window shade material that won't show cracks and pinholes

Get good shades—made to wear! Ordinary window shades don't withstand the constant wear, the strains and pulls of everyday usage. They show cracks and pinholes. They fade and sag and make all your windows look dilapidated.

Brenlin window shades are different. They stand everyday usage—and hard usage twice as long as ordinary shades!

How to test the durability of shades before you buy

Fold a piece of ordinary shade material. Open it up and hold it to the light. All along the fold there will be cracks and pinholes. Now come and let us give you a piece of Brenlin, the long-wearing window shade material; to fold. Open it up and hold it to the light. Not a crack or pinhole in it!

And the secret of it is, Brenlin window

shades are made right! They're not a cheap material like the ordinary shade, coated over with chalk and paint that cakes and falls out with a few gusts of wind.

They're made of a fine, closely woven cloth, with no filling of chalk or clay or anything else. The cloth is covered only by the finest of colors in a great variety of attractive mellow tones. Consequently, the finished shades remain so flexible and soft that they don't break and show cracks and pinholes.

How to be sure you're getting Brenlin

Ask us to show you Brenlin shades. Look for the name perforated on the edge of every yard.

Come in today and let us show you at what small cost we can furnish you with Brenlin window shades. Their durability makes them a wonderful economy.
